

9th Nottingham Barrett's Endotherapy Course

13th & 14th June 2019, Postgraduate Medical Education Centre
Queens Medical Centre campus, Nottingham University Hospitals NHS Trust, UK

Course directors: Dr Jacobo Ortiz & Prof Krish Ragnunath

Day 1: Thursday 13th June 2019

08.30-08:55: Registration & Coffee

08.55-09.00: Welcome & Introduction. Jacobo Ortiz

Instead of the usual and conventional lectures, our program this year has been designed as three panels of big experts covering the three main topics in Barrett's endotherapy: diagnosis, resection and ablation. The aim is to create dynamic, open and interactive discussions covering all the known and the new aspects of the endoscopic treatment for early Barrett's neoplasia.

Session I SCREENING, DIAGNOSIS AND SURVEILLANCE 9:00-10:30

Chair: Prateek Sharma

Panel: John de Caestecker, Maria O'Donovan, Sunny Kadri and Bas Weusten

New minimally invasive screening tools for Barrett's oesophagus. Learning how to perform a high-quality endoscopy for patients under surveillance. how we can improve our diagnostic yield of early Barrett's neoplasia and how to assess a patient with known early Barrett's neoplasia? We will also cover role of chemoprevention, new diagnostic imaging tools, new tissue acquisition techniques and role of biomarkers.

10.30-11.00: Coffee break

Session II RESECTION TECHNIQUES 11:00-13:00

Chair: Adolfo Parra-Blanco

Panel: James Catton, Andy Cole, Jason Dunn and Maria O'Donovan

How we should resect early neoplastic lesions? Has ESD any role in Barrett's treatment? Is there still a space for surgical treatment of Barrett's neoplasia in the endotherapy era? What we should expect from our pathologists when reporting a resection specimen? What should we tell our pathologists to properly report a resection specimen? Learning to interpret pathology reports.

11:00-13:00: Live endoscopy from QMC unit: ER techniques. Rehan Haidry and Krish Ragnunath

13.00-14.00: Lunch break and visit the exhibition

Session III ABLATION AND POST TREATMENT SURVEILLANCE 14:00-16:00

How I should ablate early Barrett's neoplasia?

Chair: Bas Weusten

Participants: Prateek Sharma, Rehan Haidry, Sunny Kadri and Jason Dunn

Is still RFA the ablation technique of choice? Are the new ablation modalities going to replace it? Is the new cryoablation balloon device the most promising tool in the last few years? The old APC is back, what is the role of the new hybrid-APC? What should be the aim of the ablation? CR-IM vs. CR-D. Now that I have managed to successfully eradicate the whole Barrett's segment, how should I survey my patients?

14:30-16.00: Live endoscopy from QMC unit: Ablation techniques. Jacobo Ortiz and Krish Ragnunath

16.00-16.20: Tea break

Session IV FUTURE DIRECTIONS AND CLOSING REMARKS 16:20-17:00

16.20-16.40: What's new and what's coming in the Barrett's endotherapy field: Most recent publications and future research. Prateek Sharma

16.40-17.00: Summary of the day: Take home messages. Andy Cole

19.30: Meet at The Orchard Hotel reception for coach transfer to restaurant

20.00-22.30: Course Dinner

Day 2: Friday 14th June 2019

Session I HANDS ON TRAINING AND VIDEO SESSIONS 9:00-10:45

GROUP A. 09.00-10.45: Interactive case discussions with images and videos.
Bas Weusten, Jason Dunn, Rehan Haidry and Krish Ragunath

GROUP B. 09.00-10.45: Hands on training with faculty using Cardiff Endotrainer

Station 1: ER techniques

Station 2: RFA techniques (RFA Circumferential and focal catheters)

Station 3: Hybrid APC technique

10.45-11.15: Coffee break

Session II HANDS ON TRAINING AND CASE DISCUSSION VIDEO SESSIONS 11:15-13:00

GROUP B. 11:15-13:00: Interactive case discussions with images and videos.
Bas Weusten, Jason Dunn, Rehan Haidry and Krish Ragunath

GROUP A. 11:15-13:00: Hands on training with faculty using Cardiff Endotrainer

Station 1: ER techniques

Station 2: RFA techniques (RFA Circumferential and focal catheters)

Station 3: Hybrid APC technique

13.00-14.00: Lunch break and visit the exhibition

Session III WHEN SOMETHING GOES WRONG, INTERACTIVE VIDEO SESSIONS 14:00-15:30

14:00-14:30 Managing complex strictures. Bas Weusten

14:30-15:00 Stopping post EMR/ESD Bleeding. Adolfo Parra-Blanco

15:00-15:30 Closing perforations. Krish Ragunath

15.00-15.30: Tea and Good-bye

International Faculty

Professor Prateek Sharma, Kansas, U.S.A.

Professor Bas Weusten, Utrecht, The Netherlands

UK Faculty

Mr. James Catton, Nottingham

Dr. Andy Cole, Derby

Dr. John DeCaestecker, Leicester

Dr. Maria O'Donovan, Cambridge

Dr. Jason Dunn, London

Dr. Rehan Haidry, London

Dr. Sunny Kadri, Leicester

Dr. Adolfo Parra-Blanco, Nottingham

Patient Advocate for Live Endoscopy: Dr Steve Foley

Hands-on Cardiff Endotrainer support by Mr Stuart Goddard, WIMAT, Cardiff

Endorsed by

Royal College
of Physicians
