

# The 10<sup>th</sup> Nottingham Endoscopy Masterclass

**“ADVANCED IMAGING & ENDOTHERAPY”**

Thursday 2<sup>nd</sup> & Friday 3<sup>rd</sup> November 2017  
Jubilee Conference Centre,  
University of Nottingham, UK

# Welcome

Dear Colleague:

We would like to invite you for the 10th Nottingham Masterclass in luminal and pancreatico-biliary endoscopy. The course content has evolved over time following feedback from delegates and faculty. The number of attendees has increased as well.

Hence this year's event will be hosted in the spacious and modern facilities at the, Jubilee Conference Centre of the University of Nottingham campus, close to the Queens Medical Centre.

As always we have an excellent national & international faculty line up with world renowned experts in Diagnostic and Interventional endoscopy. The programme is carefully designed to be inclusive, so whether you are a consultant, trainee, nurse endoscopist or endoscopy health care assistant, there is something for everyone!

The course is also endorsed by the BSG, RCP, and CPD points are available.

Programme includes: didactic lectures, live endoscopy demonstrations, case discussion, and dinner with the faculty at the famous Trent Bridge Cricket Ground.

Last year the nurse's programme was very popular. From the feedback we had, we will be offering a hands-on workshop in the parallel nursing programme. So, if you are working as a team, this is the masterclass for your dream team!

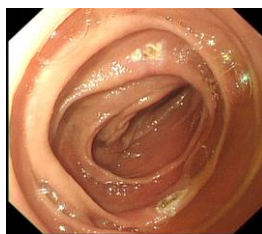

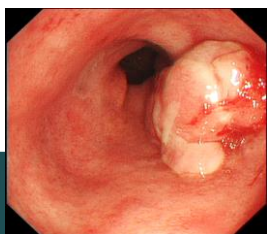

The cost of organising a masterclass of this magnitude is far in excess of the registration fees. We are grateful for our industry sponsors Olympus, Cook, Boston Scientific and ERBE in sponsoring this popular endoscopy event.

Places are limited to 125 delegates, so please register early to avoid disappointment.

**Yours sincerely**

**Prof Krish Ragunath MD FRCP & Dr Martin James PhD FRCP**
